NOTICE OF INTENTION TO DRILL OR DEEPEN
AN EXEMPT WELL

EXEMPT WELL

Section 45-596, Arizona Revised Statutes, provides: A person may not drill for cause to be drilled any well or deepen or replace an existing well without first filing a Notice of Intention to Drill with the Department on a form prescribed and furnished by the Department. The well shall be completed within one year after the date of Notice. An exempt well is a well having a pump with a maximum design capacity of not more than 35 gallons per minute which is used to withdraw groundwater. An exempt well may include the non-commercial irrigation of not more than 1 acre of land.

Re: Well Registration 55-502540 (G. D. Riley)

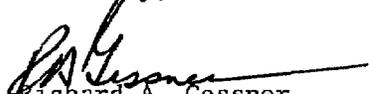

Dear Mr. Tootle:

This is to acknowledge receipt of your letter of July 10, 1984, relating to the referenced well and to confirm that we have accepted into the file the Well Driller Report and have changed the well status to that of a new well.

We have sent a Completion Report form relating to the well to Mr. Gerald D. Riley through his attorney, Michael Hornisher, Esquire, 2455 East Speedway, Suite 104, Tucson, Arizona 85719.

Based on a review of well registration 55-502540 and the driller report, a copy of which you submitted with your recent letter, it appears that there has been compliance with §45-596 Arizona Revised Statutes. We are not aware of any prohibition against the installation of pumping equipment so long as a Completion Report is filed in compliance with §45-600.

Sincerely,

Richard A. Gessner

Re: File No. D(13-13)11dbb

Dear Ms. Kane:

Per our telecon this date, enclosed is my file copy of Mr. McRay's Well Driller Report of April 11, 1982, the original of which has apparently been misplaced and never shown as having been filed with your department.

As we discussed, you will file this Log and remove Mr. Riley's well from cancelled status; you will also send a completion report form to Mr. Riley c/o his attorney, Mr. Michael Hornisher, 2455 E. Speedway, Suite 104, Tucson, Arizona 85719.

I was quite interested in your remark that lack of a Well Driller Report (Log) would in no way prevent the well owner from installing a pump and filing a completion report. I would appreciate knowing the name of a person in your department who might be available to testify to such effect should this become necessary.

Thanks for your kind attention to this matter.

Yours truly,

Carl M. Tootle

Re: Well Registration 55-502540

Dear Mr. Hornisher:

This is to respond to your letter of June 11, 1984 relating to the referenced well filed in the name of G. D. Riley.

We have reviewed the file and find that the driller has not filed the Report of Well Driller. This is also to confirm that A-Z Well and Pump Service did file the Notice of Intent to drill an exempt well on behalf of Mr. Riley. We enclose a copy of that Notice along with a copy of our letter of April 8, 1982 relating to the well.

Per your request, we also include a copy of Article 8 relating to well construction and licensing of well drillers.

Sincerely,

A handwritten signature in black ink, appearing to read "R. A. Gessner", is written over the typed name.

Re: Your File No. 13-1311dbb
Registration No. 55-502540

Dear Sirs:

Please be advised that this office represents Gerald D. Riley in connection with his pending Complaint against A-Z Well and Pump Service and Terry McCray.

The subject well, referenced above, is still not in operation, and my client has been unable to obtain either the drilling logs for the project from the contractor nor the contractor's cooperation in obtaining a well drilling card, well drilling report, or a completion report.

Request is made for the following information to be provided by your office:

1. Has the driller filed a copy of his log with your office?
2. Did A-Z Drilling Company apply for the necessary permits for the drilling? And, if so, on what date?

We would appreciate being furnished with photocopies of the contents of your file on this matter as well as a copy of any rules and regulations establishing construction standards for new wells and replacement wells as provided in A.R.S. Sect. 45-594.

Sincerely,

A handwritten signature in cursive script that reads "Michael Hornisher".

Dear Well Owner:

A copy of Notice of Intention to Drill a Well is returned to you for your records. Your driller has been mailed separately a Well Drilling Card, Well Drilling Report, and a Completion Report.

ARS 45-600 requires the driller to furnish this Department a complete and accurate log of the well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information Form. Per ARS 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Very truly yours,

Richard A. Gessner
