NOTICE OF INTENTION TO DRILL OR DEEPEN
AN EXEMPT WELL

EXEMPT WELL

Section 45-596, Arizona Revised Statutes, provides: A person may not drill or cause to be drilled any well or deepen or replace an existing well without first filing a Notice of Intention to Drill with the Department on a form prescribed and furnished by the Department. The well shall be completed within one year after the date of Notice. An exempt well means a well having a pump with a maximum design capacity of not more than 35 gallons per minute which is used to withdraw groundwater. An exempt well may include the non-commercial irrigation of not more than 1 acre of land.

Dear Mr. Gessner:

Re: Wells 86382 to 86385 and 86531 to 86551
Log of the Well and Completion Reports

On February 1, 1982 you forwarded individual notices on each of the above wells requesting well logs and completion reports. This is to inform you that these wells are installed for cathodic protection and therefore are backfilled with ABC immediately after installation of the anode. There is no logging of the hole and no equipment installed for the pumping of groundwater and therefore no information to supply to you.

I hope this clarifies this matter, if there is anything further please contact me at 271-2012.

Sincerely,

Terry D. Hudgins

Registration No. 55-86531 through 55-86551

Dear Well Owner:

A copy of Notice of Intention to Drill a Well is returned to you for your records. Your driller has been mailed separately a Well Drilling Card, Well Drilling Report, and a Completion Report.

ARS 45-600 requires the driller to furnish this Department a complete and accurate log of the well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information Form. Per ARS 45-493, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Very truly yours,

Richard A. Gessner
