COMPLETION REPORT

1. Per A.R.S. §45-600, the Completion Report to be filed with the Department within 30 days after installation of pump equipment by the registered well owner.
2. Drawdown of the water level for a non-flowing well should be measured in feet after not less than 4 hours of continuous operation and while still in operation and for a flowing well the shut-in pressure should be measured in feet above the land or in pounds per square inch at the land surface.
3. The static groundwater level should be measured in feet from the land surface immediately prior to the well capacity test.
4. The tested pumping capacity of the well in gallons per minute for a non-flowing well should be determined by measuring the discharge of the pump after continuous operation for at least 4 hours and for a flowing well by measuring the natural flow at the land surface.

RECORDED

DEPARTMENT OF WATER RESOURCES
NOTICE OF INTENTION TO DRILL OR DEEPEN
AN EXEMPT WELL

Section 45-596, Arizona Revised Statutes, provides: A person may not drill or cause to be drilled any well or deepen or replace an existing well without first filing a Notice of Intention to Drill with the Department on a form prescribed and furnished by the Department. The well shall be completed within one year after the date of Notice. An exempt well means a well having a pump with a maximum design capacity of not more than 35 gallons per minute which is used to withdraw groundwater. An exempt well may include the non-commercial irrigation of less than 2 acres or less.

Re: Notice of Intention to Drill Registration No. 55-505950
and 55-505951

Dear Mr. Gutierrez:

By this letter we are transmitting documents relating to the drilling of the referenced two wells. These wells are being approved for drilling as exploration wells for monitoring purposes under the provisions of draft Rule R12-15-802.

Authority is granted under the conditions which you stated in your letter of July 25, 1983, namely:

1. Each well will be limited to a pump design capacity of not more than 35 gallons per minute.
2. Pumping from each well will be limited to approximately 72 hours at a time and will be limited to a total of approximately 150,000 gallons per test (each time).
3. Testing will be limited to a total of 3 tests of approximately 72 hours.
4. Current planning would expect to withdraw a total of less than 3 acre feet from both wells, but in no case may more than 10 acre feet be totally withdrawn.
5. Testing must be completed within one year. If testing beyond the conditions listed above or for a duration greater than a year, the applicant will so notify this Department to obtain additional authorization.
6. The wells are to be abandoned within 5 years and in accordance with the provisions of Rule R12-15-816 and so reported.

Sincerely,
