Dear Mr. Gessner:

Re: Wells 86382 to 86385 and 86531 to 86551  
Log of the Well and Completion Reports

On February 1, 1982 you forwarded individual notices on each of the above wells requesting well logs and completion reports. This is to inform you that these wells are installed for cathodic protection and therefore are backfilled with ABC immediately after installation of the anode. There is no logging of the hole and no equipment installed for the pumping of groundwater and therefore no information to supply to you.

I hope this clarifies this matter, if there is anything further please contact me at 271-2012.

Sincerely,

  
Terry D. Hudgins
