4. Location of well: SE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$, T1N, R8E, S31

5. Permit No. 55-85809
(if issued)

DESCRIPTION OF WELL

6. Total depth of hole 760 ft.

7. Type of Casing Steel

8. Diameter and length of casing 10 in. from 0 to 20, 8 in from 0 to 760.

9. Method of sealing at reduction points 10" cemented in

10. Perforated from 600 to 757, from _____ to _____, from _____ to _____

11. Size of cuts 2 holes 1 1/4 x 15 torch cut Number of cuts per foot 2

12. If screen was installed: Length _____ ft. Diam _____ in. Type _____

13. Method of construction Drilled
drilled, dug, driven, bored, jetted, etc.

14. Date started 10 '88
Month day year

15. Date completed 11 '80
Month day year

16. Depth to water 470 ft. (If flowing well, so state.)

17. Describe point from which depth measurements were made, and give sea-level elevation if available. Ground Level

18. If flowing well, state method of flow regulation _____

COMPLETION REPORT

1. A Completion Report is to be filed with the Department within 30 days after installation of pump equipment.
2. The tested pumping capacity of the well in gallons per minute for a nonflowing well should be determined by measuring the discharge of the pump after continuous operation for at least four hours and for a flowing well by measuring the natural flow at the land surface.
3. Drawdown of the water level for a nonflowing well should be measured in feet after not less than four hours of continuous operation and while still in operation and for a flowing well the shutin pressure should be measured in feet above the land or in pounds per square inch at the land surface.
4. The static groundwater level should be measured in feet from the surface immediately prior to the well capacity test.

LOCATION OF THE WELL:

S 1/2 SW 1/4 SW 1/4 T 1 N R 8 E Sec. 31

Date Well Completed 7-25-81 Depth of Well 760 feet

1. Well Test:

Test Pumping Capacity _____ Date Well Tested NONE
(Gallons per minute)

Method of Discharge Measurement _____

(Weir, orifice, current meter, et cetera)

Static Groundwater Level 470 ft Drawdown _____ ft

Total Pumping Lift 651 ft Drawdown _____ lbs
(Flowing well)

2. Equipment Installed:

Kind of Pump Submersible
(Turbine, Centrifugal, et cetera)

Kind of Power Electric Horse Power Rating of Motor 15 HP
(Electric, Natural, Gas, et cetera)

I HEREBY CERTIFY that the above statements are true to the best of my knowledge and belief.

PERMIT NO. P- 85759

FILE NO. A(1-8)31 ccc

REGISTRATION NO. 55-85759 T

STATE OF ARIZONA)
) ss.
County of MARICOPA)

This is to certify that I have examined the foregoing application and have determined that the applicant is entitled to withdraw groundwater in an Active Management Area pursuant to Article 7 of the Groundwater Management Act of 1980. By this examination, the Department has determined that the General Industrial Use well is necessary to meet the water requirements of the applicant for commercial purposes. Under the terms set forth in Section 45-515, Arizona Revised Statutes, I hereby grant to the applicant a permit to withdraw groundwater for General Industrial Use, subject to the following limitations and conditions:

JOHNSON-STEWART-JOHNSON MINING COMPANY, INC.

Applicant 1635 North Alma School Road, Mesa, Arizona 85201

Active Management Area Phoenix Subbasin East Salt River Valley

Location of Well: Township 1N Range 8E Section 31, SW 1/4 SW 1/4 SW 1/4.

Depth 750 Feet Diameter 8 Inches Type of Casing Steel

Maximum pumping capacity 78-80 gallons per minute.

Authorized use of groundwater General Industrial Use for the manufacture of
Redi Mix Concrete. 5 acres

Land groundwater will be used upon:

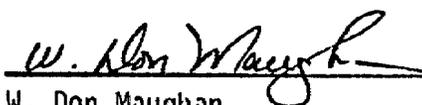

Township 1N Range 8E Section 31, S 1/2 SW 1/4 SW 1/4

Total amount of groundwater to be withdrawn 30 acre feet per annum

Duration of permit: From July 9, 1981 to July 9, 1986.

Special conditions of the permit: If during the life of the permit, the Director determines that uncommitted Municipal and Industrial Central Arizona Project Water is available or other water or effluent of adequate quality is available at a cost comparable to groundwater, the Director may require the permittee to use such water in lieu of groundwater permitted by this permit.

Witness my hand and seal of office this 9th day of July, 1981.

W. Don Maughan
Deputy Director

Re: Application for General Industrial Use Groundwater Withdrawal
Permit Renewal 59-515354 and Well Permit 55-515769

Dear Mr. DeWitt:

This Department has received and commenced to process the referenced applications to renew an expired permit relating to redi-mix concrete facility.

To date we have completed studies which conclude an adequate water supply and no well impact in the location. Our review also shows there are no adjacent irrigation grandfathered rights which might be acquired. We have not yet received your written confirmation of the AMA's conservation requirements.

At issue is our conclusion that the place of use is located within three miles of the Arizona Water Company and the Crescent Valley Utility Company. Section 45-515 A 4 requires letters of denial of service from those water companies. Consequently, we request that you provide us with those denials.

We are unable to further process the referenced applications until this issue is resolved.

Sincerely,

A handwritten signature in cursive script, appearing to read "Richard A. Gessner".

RE: Application for General Industrial Use Withdrawal Permit
59-515354

Dear Mr. DeWitt:

In August of 1986, this Department received and processed the referenced application by which you are attempting to obtain the right to withdraw 30 acre feet per annum for the operation of a Redi-Mix concrete plant. On November 19, 1986, we advised that you needed to provide letters of denial of service from the Arizona Water Company and Crescent Valley Utility Company per §45-515 A4, Arizona Revised Statutes. To date, you have not met that requirement.

We are generally aware of several conversations with Phoenix Active Management Area and understand that as an alternative you are considering downsizing the pump on the existing well to meet the definition of an exempt well.

In any event, you have not met the requirements under law for processing the referenced application which has a current present status of incomplete and inaccurate.

Consequently, this letter constitutes a denial of application 59-515354 and well permit application 55-515769.

Pursuant to A.C.R.R., R12-15-208, you may request review of or a hearing on this decision. Such a request must meet the requirements of the above referenced rule, and be filed with the Docket Clerk of this Department in Suite 150, 99 East Virginia, Phoenix, Arizona 85004, within fifteen (15) days after the date of receipt of this letter.

Sincerely,

Herb Dishlip
Deputy Director
