WELL TRANSFER SUPPLEMENT TO ESCROW INSTRUCTIONS

Date: April 29, 2011

Escrow No: **04107094**
Felice/Sager

A domestic water well is is not located on the property being conveyed in this escrow (the "Subject Property").

Parties herein are aware that if the well is not located within the boundaries of the property, even if an interest is being conveyed, the ADWR does not require a Request to Change Well Information Form be submitted and the requirement to transfer the well is waived.

A. Transfer Requirements.

IF A DOMESTIC WATER WELL IS LOCATED ON THE SUBJECT PROPERTY, THE PARTIES ACKNOWLEDGE THE FOLLOWING REQUIREMENTS OF ARIZONA LAW UPON THE TRANSFER OF THE SUBJECT PROPERTY AND THEIR RESPONSIBILITIES FOR COMPLYING WITH SAME:

Under Arizona law, whenever there is a change in ownership of property on which a domestic water well is located, the registered owner of the well must notify the Arizona Department of Water Resources ("ADWR") of the change in ownership of the well and the new owner must furnish ADWR any information required to keep its records current and accurate. See A.R.S. §45-593.C. The responsibilities of the parties for complying with these requirements are as follows:

1. Seller must complete and file a Form 55-71A Request to Change Well Information form with ADWR. This form and the related fee must be submitted upon transfer of ownership of the well, i.e. when property ownership changes.
2. A fee of \$120.00 must accompany the completed Form 55-71A. (If more than one well is being transferred, a separate form and fee is required for each well.)

For the parties' convenience, Form 55-71A and Instructions for completing same will be provided at closing. The parties also can obtain additional information on these requirements from ADWR's website: <http://azwater.gov/azdwr/permitsformsapplications>.

B. Escrow Instructions/Limitation of Liability.

1. The parties acknowledge and agree that it is their sole responsibility to comply with these requirements of Arizona law and that Escrow Agent has, and assumes, no liability or responsibility for completion, delivery or submittal of Form 55-71A or any other documentation relating to the transfer of the well.

2. If, however, **prior to closing**, the parties have delivered to Escrow Agent (1) a completed Form 55-71A and (2) \$120 filing fee per well, by check made payable to the Arizona Department of Water Resources, this Supplement shall be deemed instructions to Escrow Agent to transmit the form and fee to ADWR **at close of escrow**.

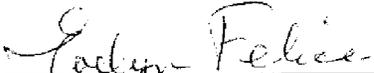

3. If only the Form 55-71A is delivered to Escrow Agent prior to closing, then Escrow Agent's sole responsibility is to return said form to Seller. It is then Seller's sole responsibility to submit the form and transfer fee to ADWR, direct and outside escrow.

4. If only the filing fee is delivered to Escrow Agent prior to closing, then Escrow Agent's sole responsibility is to return the filing fee to the party who delivered it to Escrow Agent. It is then Seller's sole responsibility to submit Form 55-71A and the applicable filing fee to ADWR, direct and outside escrow.

5. In the event ADWR rejects the Request to Change Well Information form for any reason, the parties acknowledge that it is Seller's responsibility to correct said Request and that Escrow Agent has no liability or responsibility therefor.

C. Filing Fee.

The \$120.00 filing fee(s) shall be paid by Seller Buyer.

Dear Well Owner:

This copy of Notice of Intention to Drill Well is returned to you for your records. Your driller has been mailed separately a Well Drilling Card, Well Drilling Report, and Completion Report.

A.R.S. 45-600 requires the driller to furnish this Department a complete and accurate log of the well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information Form. Per A.R.S. 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Very truly yours,

DEPARTMENT OF WATER RESOURCES

COMPLETION REPORT

1. Completion Report to be filed with the Department within 30 days after installation of pump equipment.
2. The tested pumping capacity of the well in gallons per minute for a non-flowing well should be determined by measuring the discharge of the pump after continuous operation for at least 4 hours and for a flowing well by measuring the natural flow at the land surface.
3. Drawdown of the water level for a non-flowing well should be measured in feet after not less than 4 hours of continuous operation and while still in operation and for a flowing well the shut-in pressure should be measured in feet above the land or in pounds per square inch at the land surface.
4. The static groundwater level should be measured in feet from the land surface immediately prior to the well capacity test.
