99 East Virginia - Suite 100  
Phoenix, Arizona 85004

Registration No. 55-87176  
Owner of  
Well Site Arizona Water Company  
File No. A(1-15)26cdd

COMPLETION REPORT

1. A Completion Report is to be filed with the Department within 30 days after installation of pump equipment.
2. The tested pumping capacity of the well in gallons per minute for a non-flowing well should be determined by measuring the discharge of the pump after continuous operation for at least four hours and for a flowing well by measuring the natural flow at the land surface.
3. Drawdown of the water level for a non-flowing well should be measured in feet after not less than four hours of continuous operation and while still in operation and for a flowing well the shutin pressure should be measured in feet above the land or in pounds per square inch at the land surface.
4. The static groundwater level should be measured in feet from the surface immediately prior to the well capacity test.

LOCATION OF THE WELL:

T1N R15E Sec26 SE SE SW

NOTICE OF INTENTION TO DRILL A NON-EXEMPT WELL OUTSIDE OF A DESIGNATED ACTIVE MANAGEMENT AREA

FILING FEE: \$3.00

Section 45-596, Arizona Revised Statutes, provides: In an area not subject to Active Management, no person may not drill or cause to be drilled any well or deepen or replace an existing well without first filing a Notice of Intention to Drill with the Department on a form prescribed and furnished by the department. The well shall be completed within one year after the date of notice.

NON EXPANSION AREA \_\_\_\_\_

- Fill out this form in duplicate and mail to P.O. Box 2600, Phoenix, Arizona, 85002, or deliver to 222 North Central Avenue, Suite 550, Phoenix, Arizona 85004.
- If the Non-exempt well is in fact a replacement (or deepening) well, state the registration number of the existing well. see back of this sheet
- Construction standards for new and replacement wells and the deepening and abandonment of existing wells shall be in accordance with department rules and regulations.
- This form should also be used to replace or deepen an existing irrigation well in an irrigation non-expansion area. However, water from an irrigation well drilled, deepened or replaced in a non-expansion area may not be used to increase the acreage as authorized by ARS 45-434.

MICROFILMED

I, Gordon Fjeld, state that the construction will be under the direct and personal supervision of the well driller designated on this form and that the designated driller holds a contractor's license pursuant to ARS 45-595.

DATE 3-5-81 Signature of person filing Gordon Fjeld

Arizona Water Company will purchase and close escrow on this well on March 6, 1981, and the Company does not know if a permit was obtained to drill this well. To the best of the Company's knowledge, the following information about the well is correct:

The well was drilled for the city of Globe, Arizona in approximately 1947. The well is cased to 620 ft. with 14-inch casing and the casing is in good condition. The casing is perforated from 241 ft. to 620 ft. The static water level is 466 ft. and the existing well is capable of approximately 15 gpm. The well was abandoned about 1950 by the city of Globe and Arizona Water Company intends to deepen this well and use the water for domestic water for the cities of Miami, Claypool and Central Heights.

Registration No. 55-87176

Dear Well Owner:

A copy of Notice of Intention to Drill a Well is returned to you for your records. Your driller has been mailed separately a Well Drilling Card, Well Drilling Report, and a Completion Report.

ARS 45-600 requires the driller to furnish this Department a complete and accurate log of the well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information Form. Per ARS 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Very truly yours,

  
Richard A. Gessner  
Chief, Records Section

**COMPLETION REPORT**

- 1 Per A.R.S. § 45-600, the Completion Report is to be filed with the Department within 30 days after installation of pump equipment by the registered well owner.
2. Drawdown of the water level for a non-flowing well should be measured in feet after not less than 4 hours of continuous operation and while still in operation and for a flowing well the shut-in pressure should be measured in feet above the land or in pounds per square inch at the land surface.
3. The static groundwater level should be measured in feet from the land surface immediately prior to the well capacity test.
4. The tested pumping capacity of the well in gallons per minute for a non-flowing well should be determined by measuring the discharge of the pump after continuous operation for at least 4 hours and for a flowing well by measuring the natural flow at the land surface.
