RE: Well Registration № 55-087516 Well File № A(1-15)15BCB

Dear Mr. & Ms. Pena:

Your notice of intention to deepen the above referenced well on Gila County Assessor Parcel 205-07-002 was received on April 26, 2002. The filing did not include the required site plan and filing fee and is being returned to you because it is administratively incomplete.

Also received was a letter from Mr. Dave Pote, Environmental Health Specialist with the Gila County Division of Health and Human Services. Mr. Pote's letter indicated that his inspection of your well site found that a septic on a neighboring parcel is located within less than 100 feet from your well. A.A.C. R12-15-818, Well Location, specifies that:

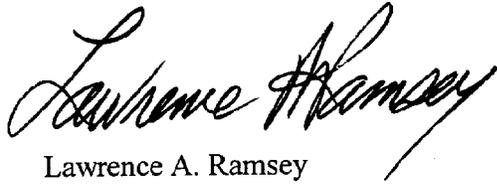

"Except for monitor and piezometer wells, no well shall be drilled within 100 feet of any septic tank systems, sewage disposal area, landfill, hazardous waste facility, storage area of hazardous materials or petroleum storage areas and tanks, unless authorized in writing by the Director."

The location of your well indicates that it is currently not in compliance with this rule and can not be deepened. Therefore, your alternatives appear to be to relocate you neighbor's septic system, drill a new well at a new location to achieve the 100 foot separation, or hook up to the local public water system.

Mr. Pote's letter indicated that you have access to a municipal water supply at your property. Connecting to this source would be the quickest way for you to restore reliable, tested water service to your property. You may also want to contact Mr. David Ruiz of M3 Engineering in Globe that is the consultant for the Pinal Creek Group. Mr. Ruiz has been involved in the replacement of domestic wells in your area as a result of a settlement between the mining companies and the AZ Department of Environmental Quality. Mr. Ruiz can be reached in Globe at 928-473-7566.

If you have any questions or require further assistance, please call Mr. Alan Dulaney of this office at 602-417-2470.

Sincerely,

A handwritten signature in cursive script that reads "Lawrence A. Ramsey". The signature is written in black ink and is positioned above the printed name and title.

Lawrence A. Ramsey

Well ID #55-087516**

Dear Mr. Ramsey:

Please find enclosed the NOI for the referenced system.

The owners of this well have made application to deepen their existing water well. This water well currently provides water for drinking and gardening.

I have made a site visit to inspect surface conditions. I find their water well is approximately 100' from the closest component of their septic system. However, I find septic systems from homes to the west of their property are within 87' of this same water well.

A municipal water supply is available at the street.

Cordially,

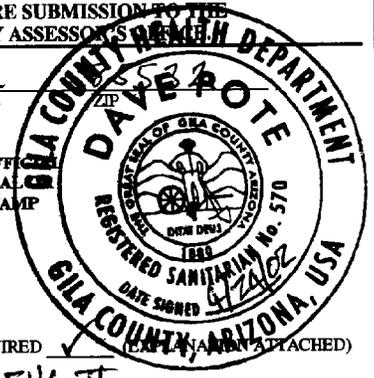

A handwritten signature in black ink, appearing to read "Dave Pote". The signature is stylized and includes a large flourish at the end.

COMPLETION REPORT

1. A Completion Report is to be filed with the Department within 30 days after installation of pump equipment.
2. The tested pumping capacity of the well in gallons per minute for a non-flowing well should be determined by measuring the discharge of the pump after continuous operation for at least four hours and for a flowing well by measuring the natural flow at the land surface.
3. Drawdown of the water level for a non-flowing well should be measured in feet after not less than four hours of continuous operation and while still in operation and for a flowing well the shutin pressure should be measured in feet above the land or in pounds per square inch at the land surface.
4. The static groundwater level should be measured in feet from the surface immediately prior to the well capacity test.

LOCATION OF THE WELL:

TIN-RISE-Sec 15-NW 1/4-SW 1/4-NW 1/4

Date well completed 5-28-81 Depth of well 250'

1. Well Test:

Test pumping capacity 17 gpm Date well tested 5-24-81  
(Gallons per minute)

Method of discharge measurement orifice  
(Weir, orifice, current meter, et cetera)

Static groundwater level 127' Feet drawdown 68' feet

Total pumping lift 195' Feet drawdown \_\_\_\_\_ pounds  
(flowing well)

2. Equipment Installed:

Kind of pump Submersible  
(Turbine, centrifugal, et cetera)

Kind of power elec Horse power rating of motor 1 1/2 HP  
(Electric, natural gas, et cetera)

I HEREBY CERTIFY that the above statements are true to the best of my knowledge and belief.

DEPARTMENT OF WATER RESOURCES  
NOTICE OF INTENTION TO DRILL OR DEEPEN  
AN EXEMPT WELL

EXEMPT WELL

Section 45-596, Arizona Revised Statutes, provides: A person may not drill or cause to be drilled any well or deepen or replace an existing well without first filing a Notice of Intention to Drill with the Department on a form prescribed and furnished by the Department. The well shall be completed within one year after the date of Notice. An exempt well means a well having a pump with a maximum design capacity of not more than 35 gallons per minute which is used to withdraw groundwater. An exempt well may include the non-commercial irrigation of not more than 1 acre of land.

Indicate Well Location by X

Dear Well Owner:

A copy of Notice of Intention to Drill a Well is returned to you for your records. Your driller has been mailed a Well Drilling Card, Well Drilling Report, and a Completion Report.

ARS 45-600 requires the driller to furnish this Department a complete and accurate Log of Well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information form. Per ARS 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Sincerely,

A handwritten signature in dark ink, appearing to read "R. A. Gessner", written over a horizontal line.
