WARD & SANDRA HOVLAND  
1739 E CIRCLE MOUNTAIN RD  
NEW RIVER, AZ 85087

Registration No. 55-500637  
File No. A(6-3) 10 BBA

Dear Well Owner:

Enclosed is a copy of the Notice of Intention (NOI) to Deepen a well that you recently filed with this Department pursuant to A.R.S. § 45-596. This is to inform you that the Department has approved the NOI and has mailed or otherwise provided a drilling card authorizing the drilling of the well to the well driller identified in the NOI. The driller may not begin drilling until he has received the drilling card, which must be displayed on the drill rig during drilling.

Well drilling activities must be completed within one year after the date the NOI was filed with the Department. If drilling is not completed within one year, you must file a new NOI before proceeding with further drilling. If in the course of drilling the well, it is determined that the well cannot be successfully completed as initially intended (dry hole, cave in, lost tools, etc.), the well must be properly abandoned and a Well Abandonment Completion Report must be filed as required by A.A.C. R12-15-816(F).

If you change drillers, you must notify the Department of the new driller's identity. Please ensure that the new driller is licensed by the Department to drill the type of well you require. A new driller may not begin drilling until he receives a new drilling card from the Department. If you are drilling a new or replacement well and it is necessary to change the location of the proposed well, you may not proceed with drilling until you file an amended NOI with the Department and the Department issues an amended drilling card to the driller. If county approval was required for the original well site plan (this applies to domestic wells on parcels that are five acres or less), you must submit a new well site plan with the new well location to your local county health authority for approval prior to filing the amended NOI with the Department.

A.R.S. § 45-600 requires the registered well owner to complete and file a Pump Installation Completion Report form (DWR form 55-56) within 30 days after the installation of pumping equipment. A form is enclosed for your use. Also enclosed is a well owner's guide that provides useful information and advice concerning your upcoming well construction project. A.R.S. § 45-600 also requires the driller to file a complete and accurate Well Drillers Report and Well Log (DWR form 55-55) within 30 days after completion of drilling. That form was mailed to your driller with the drilling card. You should insist and ensure that all of the required forms are accurately completed and timely filed with the Department.

Please be advised that A.R.S. § 45-593(C) requires the person to whom a well is registered to notify the Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep this well registration file current and accurate. Any change in well information or a request to change well driller must be filed on a Request to Change Well Information form (DWR form 55-71A) that may be downloaded from the ADWR Internet website at <<http://www.water.az.gov/adwr/content/forms/default.htm#NOI>>.

Sincerely,

A handwritten signature in cursive script that reads "Natasha Conner".

			250	350		X							X				

\* ADWR well construction standards require a surface seal consisting of a minimum of 20 feet of steel casing. Cement grout must be used to fill the annular space between the surface casing and the borehole. (A.A.C. R12-15-811(B))

The Department's issuance of an authorization to drill a well is not a determination of whether water withdrawn from the well is legally surface water or groundwater. The legal nature of the water withdrawn from the well may be the subject of court action in the future as part of a determination of surface water rights in your area. If there are court proceedings that could affect your well, you will be notified and be given the opportunity to participate. If you have questions regarding the legal nature of the water to be withdrawn from your proposed well, please consult with an experienced civil engineer, hydrologist or water rights attorney.

For the purposes of determining appropriate fees outside AMAs or INAs, "domestic purposes" is defined as "uses related to the supply, service and activities of households and private residences and includes the application of water to less than 2 acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock or poultry, as such terms are defined in A.R.S. § 3-1201."

By checking this box, I hereby provide ADWR permission to enter the property for the purpose of taking water level measurements at this well. (See instructions.)

I state that this notice is filed in compliance with A.R.S. § 45-596 and is complete and correct to the best of my knowledge and belief.

# Notice of Intent to Drill, Deepen, Replace or Modify a Well (except a Non-exempt Well in an Active Management Area)

## Introduction

These instructions are a guide to filling out Form DWR 55-40 (Rev. 09/30/08), entitled "Notice of Intent to Drill, Deepen, Replace or Modify a Well (except a Non-exempt Well in an Active Management Area)." Please review the instructions prior to completing the form in black or blue ink. Forms may be obtained at any Arizona Department of Water Resources (ADWR) office and at ADWR's Web site, <http://www.azwater.gov>. For information about the form or these instructions, contact the Supervisor of the Notice of Intent Program at (602) 771-8500. **You are advised to fill out this form with the assistance of the licensed well driller that will perform the work.**

## When Form DWR 55-40 Must be Filed

Form DWR 55-40 must be filed prior to drilling, deepening, replacing or modifying any well located outside of an Active Management Area (AMA) that will pump water, and prior to drilling, deepening, replacing or modifying an exempt well inside of an AMA. In an AMA, an exempt well is a well equipped with a pump with a maximum capacity of 35 gallons per minute (gpm) or less and from which water is withdrawn for a use other than irrigation of two or more acres. Domestic and stockwater uses are among the more common uses associated with exempt wells. After the form is filed, the proposed action may not begin until ADWR issues a drill card to the well driller.

Note that a different form must be filed before drilling, deepening, replacing or modifying a non-exempt well (one equipped with a pump with a maximum capacity greater than 35 gpm) inside of an AMA. Also note that Form DWR 55-40 is for wells that pump water. Different forms are required for wells that are not intended to pump water as their primary purpose (e.g., monitor, mineral exploration, geotechnical and cathodic protection wells). Most of the non-pumping wells are for sampling water quality or studying geologic and hydrologic conditions.

## Proposed Action

Ideally, the Notice of Intent (NOI) process should be started at least six weeks in advance. The licensed drilling contractor must have a drill card in his or her possession before drilling begins. The county environmental health department or local health authority must review the NOI, if it is to drill a well for

domestic use on a parcel of land 5 acres or less in size. Normally, ADWR will process the NOI within two weeks after its receipt from the county or the applicant.

## Filing Fee

Each NOI form must be accompanied by a filing fee as required by Arizona Revised Statutes (A.R.S.) § 45-596. If the well is located within an AMA or an Irrigation Non-Expansion Area (INA), the amount of the fee is one hundred fifty dollars (\$150.00). If the well is not located within an AMA or an INA, the amount of the fee is one hundred dollars (\$100.00) if the well will be used solely for domestic purposes (see definition below) and will have a pump with a maximum capacity of not more than 35 gallons per minute. Otherwise, the fee is one hundred fifty dollars (\$150.00). Checks must be made payable to "Arizona Department of Water Resources" or "ADWR," and should be attached to the top of the NOI form.

For the purpose of determining the appropriate fee outside of AMAs and INAs, "domestic purposes" is defined as "uses related to the supply, service and activities of households and private residences and includes the application of water to less than two acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock or poultry, as such terms are defined in A.R.S. § 3-1201."

## Instructions for Filling out the Form

### Section 1 – County or Local Health Authority Approval

Section 1 applies only if the well is located on a parcel of land 5 acres or less in size and if any of the water from the well will be used for domestic use (a use related to the supply, service, and activities of households and private residences). Section 1 is to be filled in by the county environmental health authority that controls the installation of septic tanks or sewer systems, or by the local health authority in areas where the county health authority has delegated authority to approve septic tanks and sewer systems to a local authority.

If Section 1 applies, complete Sections 2 through 7 of the NOI form, fill in the well site plan on page 3 of the form, sign and submit the form, including the well site plan, to the appropriate health authority for

 or Request for Exemption Pursuant to A.R.S. § 45-454(D)**

FILE NUMBER A 6-310 BBA
WELL REGISTRATION NUMBER 55 - 900687

6/6/09

Effective January 1, 2006, Arizona Revised Statute (A.R.S.) § 45-454(C) prohibits the drilling of an exempt well (a well that has a maximum pump capacity of not more than thirty-five gallons per minute and that is used only for non-irrigation purposes) on land if any part of the land is within 100 feet of the operating water distribution system of a municipal water provider that has an assured water supply designation (designated water provider) within the boundaries of an Active Management Area (AMA) as shown on a digitized service area map provided to the Director by the municipal provider and updated by the municipal provider as specified by the Director. A.R.S. § 45-454(D) provides that the Director shall provide an exemption from this prohibition if one of the following applies:

1. The landowner submitted a written request for service to the municipal provider that operates the distribution system and the municipal provider did not provide written notification to the landowner within thirty calendar days after receipt of the request that water service is available to the landowner after payment of any applicable fee to the municipal provider.
2. The total capital cost and fees for connecting to the operating water distribution system exceed the total capital cost and fees for drilling and fully equipping the exempt well.
3. If the applicant must obtain an easement across other land to connect to the water distribution system of the municipal provider, the applicant sent the owner of the land a request for the easement by certified mail, return receipt requested, and either the applicant did not receive a response to the request within thirty calendar days of mailing the request or the request was denied.
4. The landowner does not qualify for an exemption pursuant to 1, 2 or 3 above and the landowner provides written verification from the municipal provider that the landowner shall not receive or request water service from the municipal provider while the exempt well is operational. The exemption for the well is revoked if the landowner or any subsequent landowner receives water service from the municipal provider. **In determining whether to approve or reject an application to drill a non-exempt well under A.R.S. § 45-599, the director shall not consider any impacts the proposed non-exempt well may have on the exempt well drilled pursuant to this paragraph.**

In order to obtain authority to drill an exempt well within an AMA, you must fill out the appropriate box below certifying compliance with A.R.S. § 45-454(C) or requesting an exemption pursuant to A.R.S. § 45-454(D).

**CERTIFICATION OF COMPLIANCE WITH A.R.S. § 45-454(C)**

I certify that no portion of the land on which the proposed exempt well is to be drilled is within one hundred feet of the operating water distribution system of a municipal water provider with an assured water supply designation as shown on the provider's most recent digitized service area map on file with the Arizona Department of Water Resources. I understand that this condition may change prior to the commencement of well drilling and that if, at the time drilling is to commence, the land is within one hundred feet of the operating water distribution system of a municipal water provider with an assured water supply designation as shown on the provider's most recent digitized service area map on file with the Department, the well may not be drilled unless I apply for and am granted an exemption pursuant to A.R.S. § 45-454(D). *(If your exempt well falls into this category, skip to and complete "Signature" on the reverse side)*

RECEIVED  
AUG 19 2009  
WATER MGMT

Dear Applicant:

The Department of Water Resources recently received your Notice of Intent (NOI) to Drill, Deepen, Replace or Modify Well. However, our review indicates that the NOI is incomplete under the Groundwater Management Act for the following reason(s):

- **SECTION 1: COUNTY APPROVAL IS REQUIRED ON ALL PARCELS 5 ACRES OR FEWER, THE APPLICABLE COUNTY OR LOCAL HEALTH AUTHORITY MUST ENDORSE ALL ITEMS IN SECTION 1 WITHIN ONE YEAR BEFORE SUBMISSION TO THE DEPARTMENT OF WATER RESOURCES. YOU MUST ALSO ATTACH A SITE PLAN (PG. 3). PLEASE RESUBMIT YOUR APPLICATION TO YOUR COUNTY DEPARTMENT. THEN RETURN ALL PAGES BACK TO OUR DEPARTMENT.**

**IF YOU HAVE ANY QUESTIONS, PLEASE CALL TASHA CONNER  
AT 602-771-8644.**

In accordance with Arizona Revised Statutes (A.R.S.) § 45-596, Paragraph D, the Department is mailing this “statement of determination” as a request for information necessary to make the NOI complete and correct. Please provide the Department with the additional information and resubmit the corrected NOI form and any attachments (if applicable) to ADWR. The Department’s substantive review time frame is suspended until all requested information is provided. If the Department does not receive the necessary information within sixty (60) days, the application may be denied. You would then have to re-initiate the NOI process and pay a new filing fee to receive a drilling authority for this location.

**ATTACH THIS NOTICE WHEN RESUBMITTING THE COMPLETED NOI  
AND RETURN TO:**

DEPARTMENT OF WATER RESOURCES  
NOTICE OF INTENTION TO DRILL OR DEEPEN  
AN EXEMPT WELL

EXEMPT WELL

Section 45-596, Arizona Revised Statutes, provides: A person may not drill or cause to be drilled any well or deepen or replace an existing well without first filing a Notice of Intention to Drill with the Department on a form prescribed and furnished by the Department. The well shall be completed within one year after the date of Notice. An exempt well means a well having a pump with a maximum design capacity of not more than 35 gallons per minute which is used to withdraw groundwater. An exempt well may include the non-commercial irrigation of not more than 1 acre of land.

Registration No. 55-500637

Dear Well Owner:

A copy of Notice of Intention to Drill a Well is returned to you for your records. Your driller has been mailed separately a Well Drilling Card, Well Drilling Report, and a Completion Report.

ARS 45-600 requires the driller to furnish this Department a complete and accurate log of the well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information Form. Per ARS 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Very truly yours,

  
Richard A. Gessner  
Chief, Records Section

PHOENIX AZ 85013

Gentlemen:

The Department of Water Resources issued drilling authority approximately a year ago for the well referenced by our file number on the label at the top of the form. Our records show this well has not yet been completed.

If it is your intention to complete the well, this is to advise that you must refile in order to do so. If the well has been completed, we require submission of the Log of Well and a Completion Report (if pump equipment has been installed). These forms were furnished to your driller at the time drilling authority was issued.

Arizona Revised Statute 45-600 requires the driller to furnish a complete and accurate log within 30 days of completion of drilling. It also requires the filing of a Completion Report within 30 days after the installation of pumping equipment on the well. The drilling of the well must be completed within one year from the date that we issued drilling authority. There is no time limit for you to install pump equipment.

Specifically, if the well has been completed, your well file needs the following reports to bring the well into full compliance with the law:

1.        Log of the Well,
2.   ✓   Completion Report.

We will appreciate your immediate assistance in this regard. Please, contact this office if further assistance or information is required.

Sincerely,

W. Don Maughan  
Deputy Director
