Gentlemen:

The Department of Water Resources issued drilling authority six months ago for the well referenced by our file number on the label at the top of this form. Our records show that this well has not yet been completed.

Our experience shows that most wells are drilled soon after filing. Consequently, this letter is only intended as a courteous reminder that if the well has been completed, certain reports are required. If the well has not been drilled, you have some months remaining to complete the well.

Arizona Revised Statute 45-600 requires the driller to furnish a complete and accurate Log of the Well within 30 days of completion of drilling. Within 30 days after the installation of the pump equipment, a Completion Report is required.

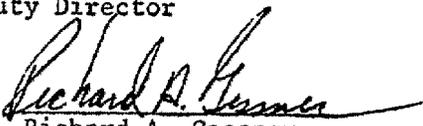

Specifically, if your well has been completed, we need the following report(s) to bring the well into full compliance with the law:

1. Log of Well,
2. ✓ Completion Report.

We will appreciate your immediate assistance in reporting if you have drilled or completed your well. Please contact this office if further assistance or information is required.

Sincerely,

W. Don Maughan
Deputy Director

Dear Sir:

I have been in contact with your office, and was told to write and let you know that there has been no pump installed on this well as yet.

I have a completion report and as soon as I am financially able to have a pump installed will fill it out and send it in.

Yours truly
Harry H. Cottle

Dear Well Owner:

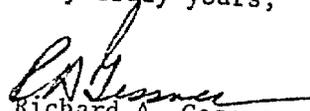

A copy of Notice of Intention to Drill a Well is returned to you for your records. Your driller has been mailed separately a Well Drilling Card, Well Drilling Report, and a Completion Report.

ARS 45-600 requires the driller to furnish this Department a complete and accurate log of the well within 30 days of completion of drilling, and a Completion Report within 30 days after installation of pumping equipment.

Also enclosed for your future use is a Change of Well Information Form. Per ARS 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and information pertaining to the physical aspects of the well to keep the well registration record current and accurate.

In the event it is necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling.

Very truly yours,

Richard A. Gessner
