Dear Well Owner:

Enclosed for your records is a copy of the Notice of Intention to drill a well which was recently filed with this Department. This is returned to you as evidence of compliance with ARS 45-596. ~~Also enclosed is a Completion Report to be submitted when pump equipment is installed.~~ Your driller has been mailed separately a Well Drilling Card and a Well Drilling Report form.

In the event that you determine it necessary to change the location of the proposed well, you should obtain the written permission of the Department of Water Resources before proceeding with the drilling. A properly signed amended drilling card must be in the possession of the driller before drilling commences at a different location than originally authorized.

ARS 45-600 requires the registered well owner to submit a completion report within 30 days after the installation of pumping equipment. It also requires the driller to furnish this Department a complete and accurate log of the well within 30 days after completion of drilling. You should insist and ensure that both of these are done.

For your future use, a Change of Well Information form is enclosed should it become needed. Per ARS 45-593, the person to whom a well is registered shall notify this Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep the well registration file current and accurate.

Sincerely,

Richard A. Gessner
Chief, Operations Branch
