(THIS FORM IS FOR RECORDER'S USE ONLY)

UNOFFICIAL DOCUMENT

WELL OWNERSHIP SHARE AGREEMENT
SHAREHOLDERS OF WELL LOCATED ON PIMA

We, the undersigned, Scott T Elliott and Jose Torres
herein called "SHAREOWNER" do hereby agree to the terms and conditions of a
1/4 share in the domestic water well described in the attached
legal description in EXHIBIT "A" and made a part of this Agreement, and hereafter
called "THE WELL". All SHARES shall be bound by the terms and conditions set forth
in the sections below.

SECTION ONE
LEGAL DESCRIPTION AND WELL DESCRIPTION

The Legal Description is provided in EXHIBIT "A" as attached and made a part hereof.

SECTION TWO
DEFINITIONS

SHAREOWNER: One Quarter [1/4] well owner of "THE WELL"

SHARES: There are four (4) current SHARES in THE WELL. Each SHAREOWNER is entitled to one SHARE.

THE WELL: The Domestic water well described in attached legal description in EXHIBIT "A".

THE PROPERTY: The entire property sold by GRANTOR to SHAREOWNER including well share, fences, etc.

SECTION THREE
INTENT

This Agreement intends to set out basic guidelines that will allow the water well described in EXHIBIT "A" to be shared by two or more SHAREHOLDERS. It is not intended to cover all contingencies. The Agreement can be amended by written agreement by all SHAREOWNERS. Easements will be granted from the WATER WELL to adjacent property lines.

SECTION FOUR
RESTRICTIONS

1. There shall be a maximum of four (4) SHAREOWNERS sharing THE WELL unless all the SHAREOWNERS agree that there shall be additional well SHARES granted.

2. THE WELL shall be used for domestic household use and garden use only. SHAREOWNER is entitled to one single-family hookup.
3. The SHAREOWNERS rights to THE WELL reside with THE PROPERTY. The sale of THE PROPERTY will carry with it the SHAREOWNER's rights to THE WELL. In the event SHAREOWNER sells a portion of THE PROPERTY, the SHAREOWNER rights may not be subdivided. The SHARES must be sold all or none. The new owner must agree to the terms and condition of this Agreement or be subjected to disconnection from THE WELL.
4. SHAREOWNER may not extend their water lines beyond the property boundaries for which this share is purchased as specified above.
5. Extra costs are to be determined by SHAREOWNERS.

SECTION FIVE
REPAIR, MAINTENANCE, REPLACEMENT EQUIPMENT AND UTILITIES

It is recognized that the pump equipment will wear out and will need to be maintained, repaired, or replaced in THE WELL. Provisions below set out guidelines for funding this equipment by establishing one maintenance account in which SHAREOWNERS will deposit monthly amounts.

1. All SHAREOWNERS shall be responsible for paying \$25/Month into one maintenance account. The electric bill will be paid first and the balance shall remain in the maintenance account. The monthly SHAREOWNER contributions will begin on the day of possession of THE PROPERTY, and will cease when the maintenance fund establishes a \$4,500.00 balance. The \$25 monthly payments from SHAREOWNERS will be reinstated when the maintenance account balance drops below \$3,000.00. The maintenance account funds can only be retrieved by the SHAREOWNERS. SHAREOWNERS will be held responsible for establishing a joint bank account to hold the maintenance account funds. Withdrawal of funds from the maintenance account shall require the signatures of a minimum of TWO SHAREOWNERS.
2. SHAREOWNERS shall be responsible for organizing the completion of, and paying for all repairs, maintenance, replacement, etc., related to THE WELL in a timely manner so that water distribution is available at all times.
3. Payment for all repairs, maintenance, replacements, etc., shall be first taken from the maintenance account set up by the SHAREOWNERS. In the event the balance of funds in the maintenance account is insufficient to handle the necessary payments related to THE WELL, all additional costs shall be borne equally by the SHAREOWNERS.

4. In the event any or all SHAREOWNERS default on their responsibility to contribute to the maintenance account, they will still be held accountable to pay a pro-rata share of maintenance, repair & replacement costs as set forth in Item #1 above. SHAREOWNERS who default on their payment(s), may have a lien filed against their property for the unpaid amount and for all legal fees required to recover the defaulted amount.

SECTION SIX
RESPONSIBILITIES OF EACH SHAREOWNER

Each SHAREOWNER is responsible for:

1. The cost of hookup from their property line to their point of usage and any supply and installation of meters or meter box and repairs thereof.
2. Determining whether they need a pressure regulator and supplying and installing one, if needed, on their water line.
3. Making sure that any new lines and equipment are compatible with the system and must conform to the specifications of the existing system.
4. Testing the water for any common or uncommon impurities or contaminants, which may pose any health hazard or inconvenience to the user. Any SHAREOWNER who contracts for the testing of the water quality, agrees to share a copy of the reported results with the other SHAREOWNERS.
5. Accepting joint financial responsibility for THE WELL, pumping equipment, holding or storage system, and delivery system to their property line.

SECTION SEVEN
DISCLAIMERS AND LIABILITY

1. The SHAREOWNER in THE WELL does not extend any warranty explicit or implicit as to water quality to any existing SHAREOWNER or to any new or prospective SHAREOWNER.
2. SHAREOWNER hereby extends permission to enter THE PROPERTY in their absence for the purpose of emergency repairs of broken or leaking water lines and agrees to pay, upon presentation, billing for any such repairs.

The Department's issuance of an authorization to drill a well is not a determination of whether water withdrawn from the well is legally surface water or groundwater. The legal nature of the water withdrawn from the well may be the subject of court action in the future as part of a determination of surface water rights in your area. If there are court proceedings that could affect your well, you will be notified and be given the opportunity to participate. If you have questions regarding the legal nature of the water to be withdrawn from your proposed well, please consult with an experienced civil engineer, hydrologist or water rights attorney.

For the purposes of determining appropriate fees outside AMAs or INAs, "domestic purposes" is defined as "uses related to the supply, service and activities of households and private residences and includes the application of water to less than 2 acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock or poultry, as such terms are defined in A.R.S. § 3-1201."

I state that this notice is filed in compliance with A.R.S. § 45-596 and is complete and correct to the best of my knowledge and belief.

Registration No. 55-208281
File No. D(18-21) 28 DCB

Dear Well Owner:

Enclosed is a copy of the Notice of Intention (NOI) to Drill a well that you recently filed with this Department pursuant to A.R.S. § 45-596. This is to inform you that the Department has approved the NOI and has mailed or otherwise provided a drilling card authorizing the drilling of the well to the well driller identified in the NOI. The driller may not begin drilling until he has received the drilling card, which must be displayed on the drill rig during drilling.

Well drilling activities must be completed within one year after the date the NOI was filed with the Department. If drilling is not completed within one year, you must file a new NOI before proceeding with further drilling. If in the course of drilling the well, it is determined that the well cannot be successfully completed as initially intended (dry hole, cave in, lost tools, etc.), the well must be properly abandoned and a Well Abandonment Completion Report must be filed as required by A.A.C. R12-15-816(F).

If you change drillers, you must notify the Department of the new driller's identity. Please ensure that the new driller is licensed by the Department to drill the type of well you require. A new driller may not begin drilling until he receives a new drilling card from the Department. If you are drilling a new or replacement well and it is necessary to change the location of the proposed well, you may not proceed with drilling until you file an amended NOI with the Department and the Department issues an amended drilling card to the driller. If county approval was required for the original well site plan (this applies to domestic wells on parcels that are five acres or less), you must submit a new well site plan with the new well location to your local county health authority for approval prior to filing the amended NOI with the Department.

A.R.S. § 45-600 requires the registered well owner to complete and file a Pump Installation Completion Report form (DWR form 55-56) within 30 days after the installation of pumping equipment. A form is enclosed for your use. Also enclosed is a well owner's guide that provides useful information and advice concerning your upcoming well construction project. A.R.S. § 45-600 also requires the driller to file a complete and accurate Well Drillers Report and Well Log (DWR form 55-55) within 30 days after completion of drilling. That form was mailed to your driller with the drilling card. You should insist and ensure that all of the required forms are accurately completed and timely filed with the Department.

Please be advised that A.R.S. § 45-593(C) requires the person to whom a well is registered to notify the Department of a change in ownership of the well and/or information pertaining to the physical characteristics of the well in order to keep this well registration file current and accurate. Any change in well information or a request to change well driller must be filed on a Request to Change Well Information form (DWR form 55-71A) that may be downloaded from the ADWR Internet website at <<http://www.water.az.gov/adwr/content/forms/default.htm#NOI>>.

Sincerely,

Monica Ortiz
