Re: Decision of the Director to Deny Ponderosa Water I.D., Application for a Notice of Intent to Drill a Well, Registration Number 55-223898

To whom it may concern:

Please be advised that the Director of the Arizona Department of Water Resources ("Department") has decided to deny the "*Notice of Intent to Drill a Well*" application No. 55-223898 filed by you on September 5, 2014.

By letter dated September 12, 2014, the Department notified you that it had determined the application to be incomplete and incorrect. The letter identified items to address before the Department could continue its review of the application and informed you that failure to submit the requested information within 60 days (by November 4, 2014) may result in denial of the application.

You may re-apply to drill well registration number 55-223898, once you have all the necessary requirements. You are entitled to appeal this decision. If you wish to appeal this action, you must file a written appeal within **thirty (30) days** from the date of this letter. I am providing you with a summary of the appeal process and an appeal form, should you elect to pursue this option.

If you have any questions, please contact Stella Murillo, the manager of the Groundwater Permitting and Wells Unit at (602) 771-8594.

Sincerely,

The Department's issuance of an authorization to drill a well is not a determination of whether water withdrawn from the well is legally surface water or groundwater. The legal nature of the water withdrawn from the well may be the subject of court action in the future as part of a determination of surface water rights in your area. If there are court proceedings that could affect your well, you will be notified and be given the opportunity to participate. If you have questions regarding the legal nature of the water to be withdrawn from your proposed well, please consult with an experienced civil engineer, hydrologist or water rights attorney.

For the purposes of determining appropriate fees outside AMAs or INAs, "domestic purposes" is defined as "uses related to the supply, service and activities of households and private residences and includes the application of water to less than 2 acres of land to produce plants or parts of plants for sale or human consumption, or for use as feed for livestock, range livestock or poultry, as such terms are defined in A.R.S. § 3-1201."
